The In-Tune Festival 2024 is by far, London's Biggest Holistic, Wellness, Spiritual Festival to date. Whether you are into yoga, reiki, gong healing or just going within by practicing meditation, this event is for you.

The Intune Festival will attract people of all walks of life and ethnic backgrounds for the sole purpose of providing an alternative way to both their mental, spiritual and emotional health.

The event is absolutely free to the general public because we the organisers feel that every human should be aware of alternative health benefits and have access to all of the above, and in having a free event, the local business, stall holders speakers and sponsors also benefit immensely.

The event is organised by the Multi Award Winning Aster360, who in the past have organised some of the grandest events in the United Kingdom...
